

Easy Payroll

ABOUT US

Advanced Developers.Net is a technology company founded in 1994. It has been serving the business community of Puerto Rico for over 16 years, with cutting edge “one stop” software solutions created with the user in mind, to achieve a more competitive, streamlined and cost-efficient administration of your workforce.

Our experienced team works day by day with professionalism and enthusiasm, allowing us to provide a personalized service to comply with the expectations and needs of our clients. We provide a dedicated Help Desk where our highly trained customer care team is on hand to help you at all times with computer programming solutions that include products from Microsoft, Intuit, Best Software and others.

- Our Passion: Advance our clients, help them in every way. Transform our ideas from concept to finished product, while investing in the hottest technology. Accomplish our goals by satisfying every customer. To grow individually and as a company.
- Our Mission: To deliver technology solutions that help every business of every size achieve superior operational performance while providing an exceptional consumer experience and keeping payroll costs under control.
- Our Vision: To be a company so remarkable that people want to work for, so outstanding that people want to buy from, and so well-organized that people want to invest in.

GOVERNING PRINCIPLES AND CORE VALUES

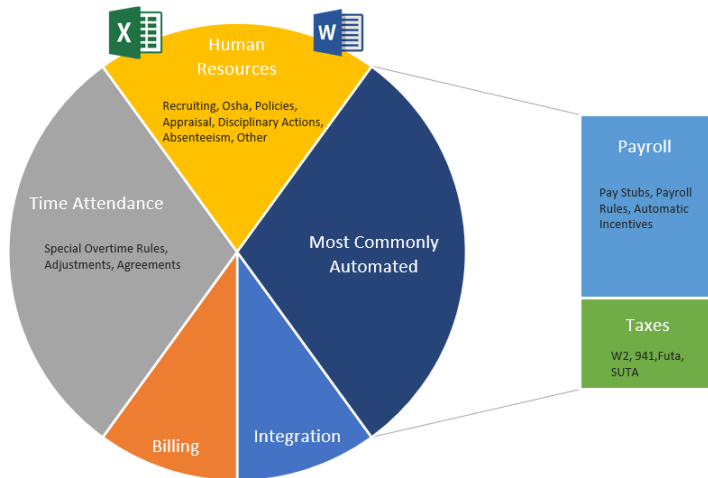

- In God we trust.
- Teams of Winners: We understand our combined challenges and opportunities; we choose to work together for the accomplishment of greater goals and aspirations. We know that our employees are our more important assets, and ethics are our most basic and fundamental aspects
- Clientele for Life: Customers for life are those that cherish their business relationship with us because of the value and results that they receive from us. Our products and services are a fundamental piece of our customers daily tasks.
- Ideas in Action: Obstacles are meant to be overcome; vision and dreams are not. Balance an enthusiasm for starting anything that is possible with a requirement to finish everything that is started. Evolve constantly, which requires agility and judgment, never take a risk for which you cannot be accountable. Always demonstrate the driving force and commitment to ask better questions, and ultimately deliver better ideas.
- Respect and Honor: Honesty is the foundation for a relationship; we will be honest with our clients. We will respect, act ethically and honorably, and be committed in all that we do for each other, our customers, our shareholders and our employees. Respect and honor are an unwritten code that drives us to hold ourselves and each other in the highest regard, both inside and outside of our company. Respect and honor produce integrity and reliability in all that we do.

COMPETITIVE ADVANTAGE

Why our software is different?

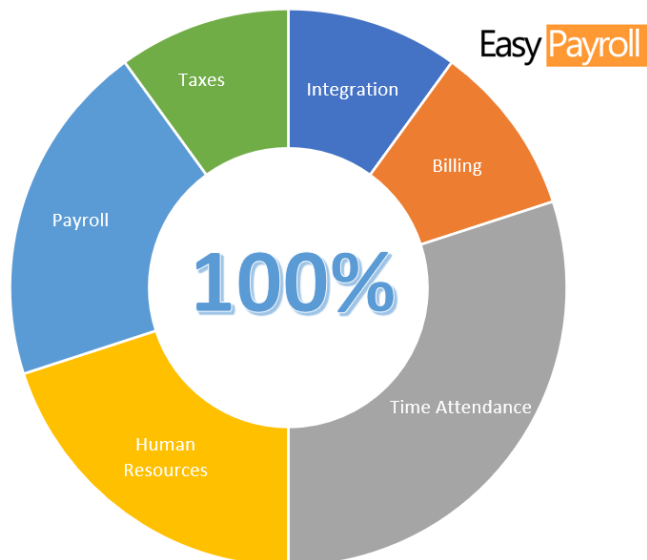

With all other existing Other software companies can handle some of the tasks that are performed in the regular payroll cycle like W2's, Taxes, Payroll Stubs, **but are silent to the most important tasks for your company like HR, Billing, and Company Billins, integration and Notification, and Company Policies**_the result is that company uses other software ending up with dta scattered among many places difficult to summarize or analyze.

Other solutions requires the use of third party software

Well: Easy Payroll Response to all those answers **is a fully integrated suite of modules** with your company on hand, where all your company tasks related to Human Resources, Absentee, Time Attendance, Taxes, Billing, Payroll are integrated into a one product!

Easy Payroll Software (100% of recurring tasks)

It's no surprise that cloud computing has literally taken the world by storm. For most businesses and enterprises, gone are the days of struggling with complicated on-premise server rooms and complicated networking. Over the past decade, cloud computing has become more cost-efficient, secure, and reliable. The major providers in the industry are now investing heavily in their hardware, software, and global networking infrastructure to obtain more market share, which has resulted in unparalleled performance. Healthy competition is always a win for consumers and partners as this drives costs down and requires them to constantly innovate to stay ahead.

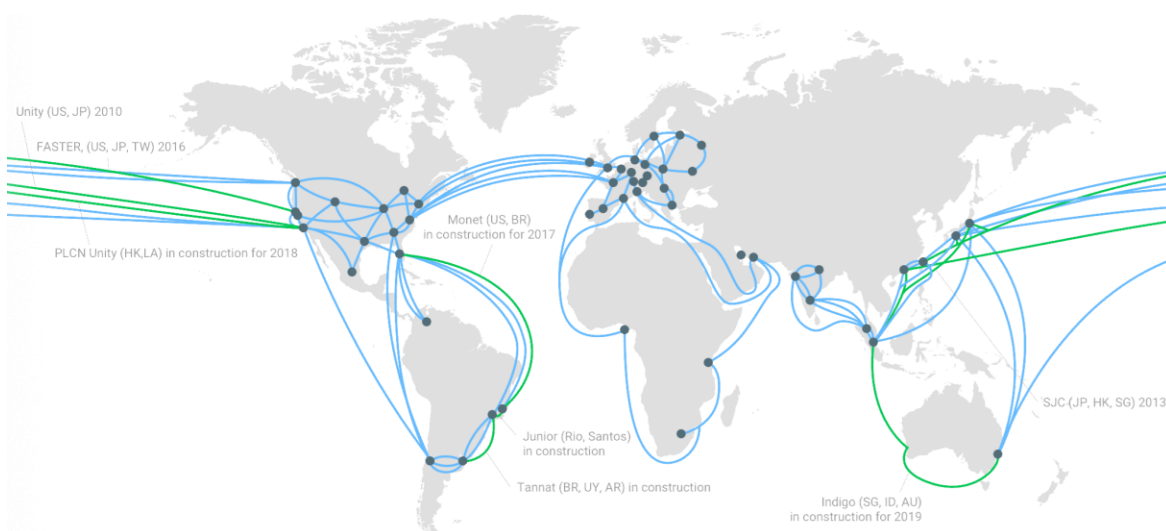

Our cloud creates daily backups to different cardinal points to ensure it continuity in case of a disaster we are prompt for data recovery, if required by your contract we can deposit a backup upon schedule into your premises.

Our Easy Payroll Cloud allows you to work from any computer, iPad, tablet or from any geo-location as long as you have access to the internet.

- It uses "128 Bits encryption protocol", any information registered here is protected following the highest security protocols, your data is safe and protected.
- Our cloud makes automatic backup to 3 different geo-locations (Canada / Dallas / Florida)
- Our cloud offers security and 24/7 monitoring to ensure optimal performance.

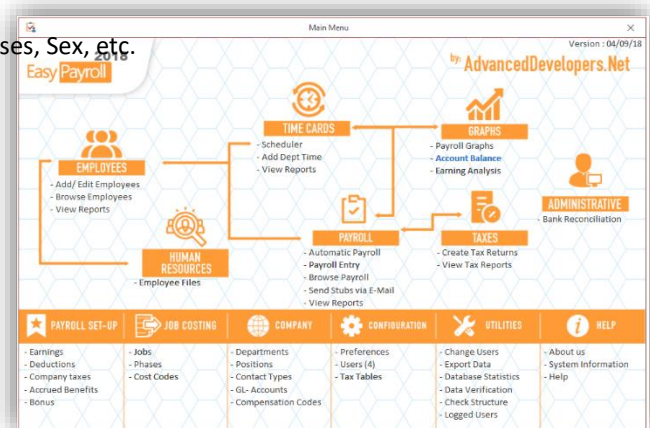

Easy Payroll used Google Compute Engine that was launched in a public preview back in June 2012, and it was then released for general availability in December 2013. Big brands now utilizing Google Compute Engine include **Apple**, HTC, **Best Buy**, Ubisoft, **Philips**, **Domino's Pizza**, Leadpages, **Heathrow**, **PayPal**, **Coca-Cola**, Evernote, **Sony Music**, and many more. Google Chief Executive Officer Sundar Pichai said Google Cloud Platform is a top-three priority for the company. The research firm estimates the business generated \$870 million in the third quarter, up 76 percent year-over-year.

Our services are provided by a dedicated group of experienced and knowledgeable specialists. We have equipment and software to simulate your working environments, (including Windows networks and SQL Server databases) to discover difficult situations, where you may experience problems and difficulties; this is done in our office before new projects reach your production environments. Errors and problems are fixed at their development stage, in a simulated environment, not at your office.

We provide Email-support to all our clients. We also provide phone and instant messaging assistance during business hours. If you need special assistance on specific dates or time, we can gladly visit your office and work with you. Don't worry; we are always there for you. We support our applications. Support contracts are available in different flavors so you only pay what you need, when you need.
